ZISA[®]: Honoring Safety and Excellence in Union Construction and Maintenance

About ZISA[®]

Each Fall, the union construction industry gathers in Washington, D.C. to honor the “best of the best” – the tripartite teams who achieved zero injuries on their industrial construction and maintenance projects in the previous calendar year.

Established in 2000 by the National Maintenance Agreements Policy Committee, Inc. (NMAPC), the Zero Injury Safety Awards[®] (ZISA[®]) is an annual recognition program celebrating those union contractors, labor representatives and owner-clients who work together in a tripartite fashion to create injury-free job sites.

We believe these phenomenal achievements – once thought to be impossible – are the direct result of the mutual cooperation, respect and willingness to collaborate that are found within the NMAPC and the union construction industry in general. The winners’ hard work, cooperation and dedication to the zero injury philosophy prove once again that union construction and maintenance are the safest and best options on the market.

ZISA[®] is recognized nationwide as union construction and maintenance’s premier award for industrial safety. It showcases the best our industry has to offer, and reaffirms our commitment to safety.

ZISA®

GET TO KNOW ZERO

*For **contractors**, a Zero Injury Safety Award® is an invaluable marketing tool. It shows potential clients that they understand the importance of safety and have the knowledge, commitment and experience necessary to achieve the ultimate pinnacle of performance: an injury-free job site.*

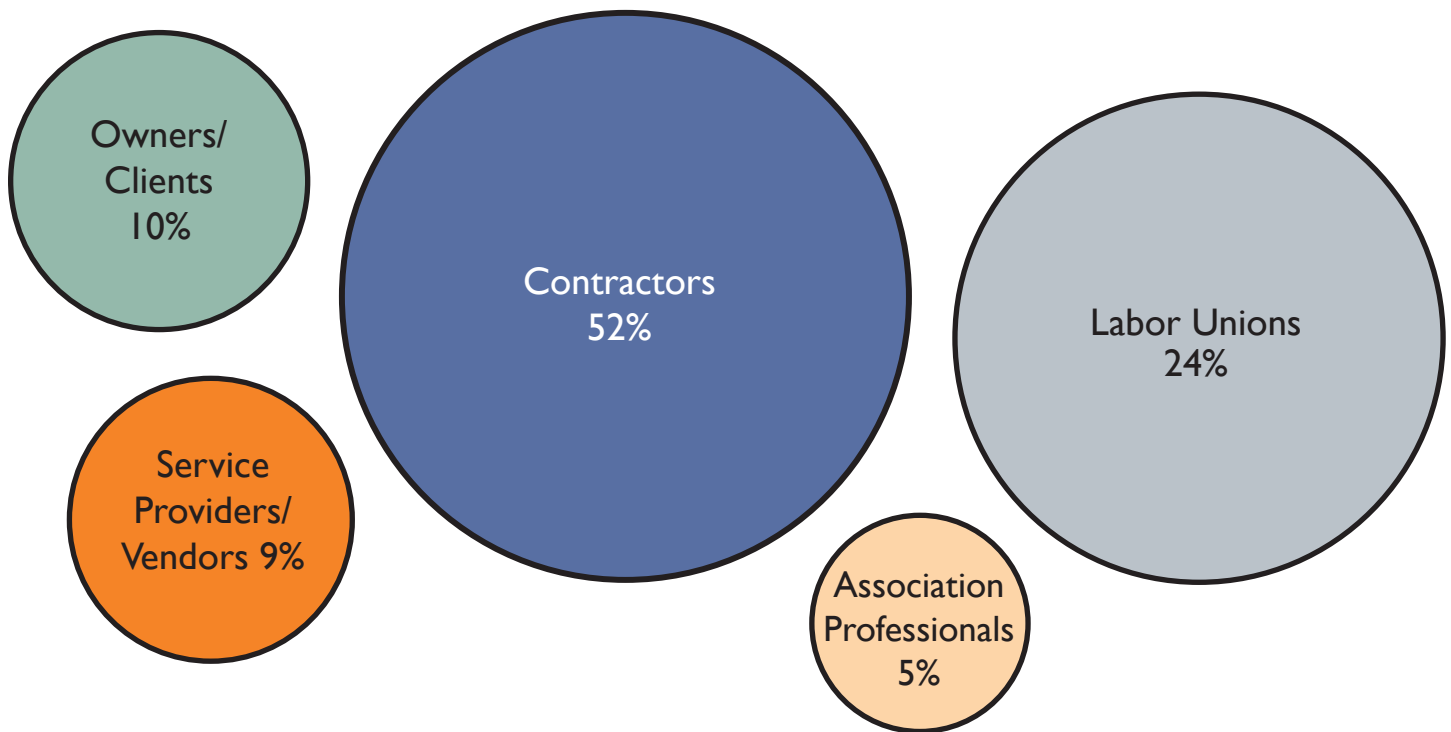

*For **labor unions**, a Zero Injury Safety Award® proves once again that union craft workers are the safest and best-trained option available to contractors and owners. In an increasingly competitive market, earning a ZISA® is not only a badge of honor – it provides unions with a crucial competitive edge.*

*For **owner-clients**, a Zero Injury Safety Award® confirms that safety is a priority for everyone involved in the project – and that production and quality will not be compromised.*

AIMING FOR ZERO

As the industry's premier safety recognition program, ZISA® provides a host of benefits to contractors, labor unions and owner-clients. First and foremost, ZISA® emphasizes our collective commitment to jobsite safety in a highly visible manner. Recognition encourages all tripartite members to work even harder and leads to increasingly better safety performance. Before the concept of zero injury gained acceptance, no one thought it was possible to complete a complex construction project on time and on budget without a single injury. Now the question is not "Can we do it?" but "How far can we take this?"

ZERO INJURY SAFETY AWARDS® GALA ATTENDEES

“The exceptional standards that have been set by the ZISA® Program directly align with our company’s commitment to safety that is employed on each and every project we perform. Sponsoring the ZISA® Gala is a valuable channel to market our company’s dedication to safety to our partners in the labor, contractor and owner communities.”

— Chris Buckman, Vice President of Corporate Construction, BMWV Constructors
